AVerVision F17-8M

Flexible Arm Interactive Visualizer (Document Camera)

AVerVision F17-8M is a value-beyond visualizer suitable for every classroom. Its superior 8 megapixel camera delivers high definition image quality; even the subtle part of items, students are able to see it through the 27.2X zoom. Teaching is just a breeze with the aid of F17-8M to achieve inspiring students' limitless creativity.

Full HD 1080 | **HDMI™** | **8MP** | **5 YEAR WARRANTY**

> They're very easy to use — you just turn it on, teachers can teach on the fly. Anything they find that's useful they can share with the whole class.
>
> Carl Vogel, EdTech Magazine

Breathtaking Image Quality

Seeing is believing is the best description of F17-8M's image quality. The high definition image allows you to get up close to the object as much as you can.
360-degree Flexible Arm

360°

Bend and adjust the gooseneck whatever you need to make the sample be seen crystal clear. Students will miss any details no more.

Image Streaming via HDMI Connectivity

Present your teaching materials to the class with full HD high resolution video quality via HDMI connectivity from your devices then to the display.

Collaborate Your Students with A+ Suite

Use tablets to make the best of collaboration with students during the lesson and to carry out the essence of flipped classroom – "active learning".

## A+ Suite Classroom Software for AVer Visualizer
Explore new possibilities!

- ▶ Integrate live images into existing teaching material, while accessing to visualizer functions.
- ▶ Upload lessons to YouTube™, DropBox™, classroom management sites and more!
- ▶ Stream live video from a second visualizer in picture-in-picture mode.
- ▶ Create your own media library then compare them side-by-side.
- ▶ View and adjust live visualizer images via an Interactive Flat Panel (IFP) or IWB.
- ▶ Create an interactive, and 1 to 1 learning environment with Sphere2 and ClassSend.
