

BenQ

SL6504

The World's First

Pantone Validated &
Pantone SkinTone Validated Signage

Vibrant color accuracy

With a 99% sRGB color gamut and innovative color modes for various scenarios, it offers outstanding color accuracy.

See the world in Pantone colors

Pantone mode delivers the vibrant hues of the Pantone palette and the nuanced tones of the Pantone SkinTone Guide to enhance corporate color.

Your Mac, faithfully displayed

M-book mode ensures that the colors you see on your Mac® desktop and MacBook® laptop are accurately displayed on the signage.

Coding made clearer than ever

Coding mode makes displaying code crystal-clear thanks to enhanced contrast and color temperature for better programming and coding lessons.

A natural reading experience

Reduce eye strain and conserve energy with ePaper mode, which simulates reading on traditional paper by reducing contrast, color temperature, and converting images to grayscale.

Google

Google Play

Get access all core Google apps on SL04.

Core Services

Google Core Services come preinstalled on SL04.

Supported Software

X-Sign 3.0

Send scheduled announcements with images/media, warnings for cancellations or emergencies and reminders.

InstaShare 2

Wireless screen sharing & casting from any device. Share several screens simultaneously, with different types of content.

DMS

Device Management Solution centrally oversees all displays to get real-time status information, deploy OTA updates & more.

AMS

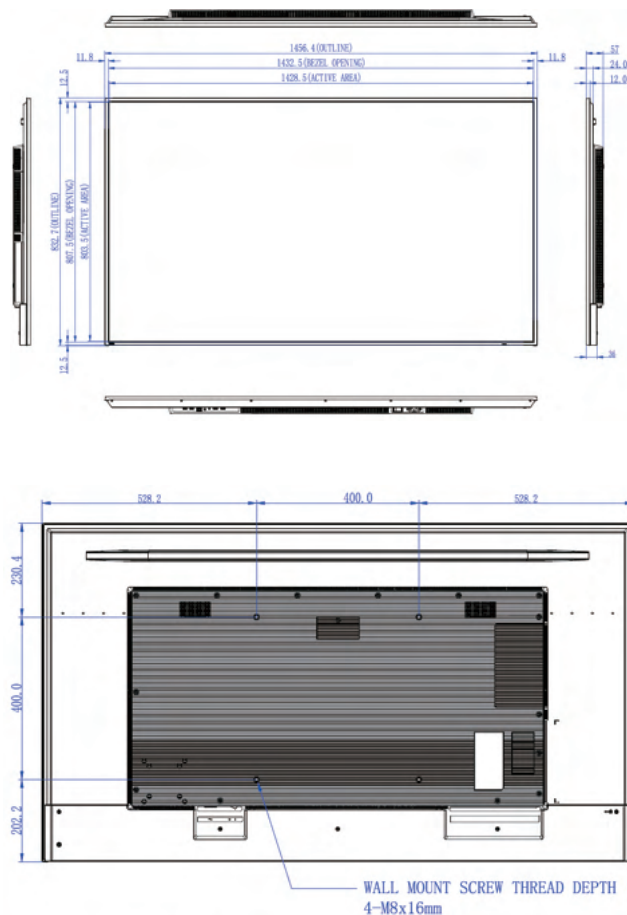

Account Management System to conveniently load and access your account and cloud storage from any BenQ display.

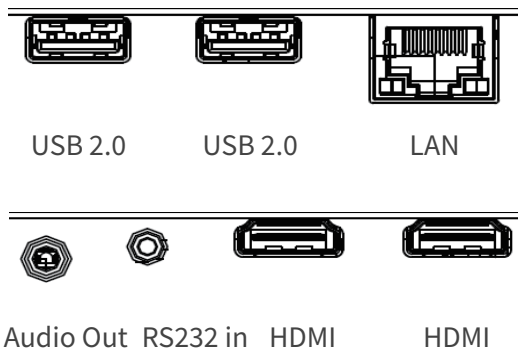

Spec - SL6504
