

SC-800 HD Document Camera

Our brands of visualizers (document cameras), you get a well-designed digital presentation tool that is easy-to-use and provides superior image quality. In addition, our visualizers lead the market with the endless development of unique, forward-thinking capabilities, like one-touch recording, onboard annotation.

Flexible arm visualizers (Document Cameras) give you the portability and flexibility needed to take your visualizer wherever you need to be, while still offering remarkable image quality and fantastic features, like onboard annotation and one-touch recording. With one of these versatile visualizers in hand, you are can capture smooth, vivid images of countless objects from just about any angle.

- You can show
- 3D objects and models
 - pages from a textbook
 - artworks, photos, maps, plans, charts and graphs
 - techniques such as knot tying and other practical skills
 - instruments used in particular industries (nursing, podiatry, dentistry, vet science etc)
 - comparison of two or more objects side by side
 - live animals (earthworms, insects, fish or tadpoles in a bowl etc)
 - flowers, leaves, rocks (all can be viewed in minute detail)
 - X Rays, transparencies and slide
